

UDI

urban developers
& investors

Poland ^{Warsaw}
Czech republic ^{Prague}
Hungary ^{Budapest}
Serbia ^{Belgrade}

Last year, a successful, international company Urban Developers and Investors Ltd. Group (UDI), with the headquarters in Prague, joined the Serbian real estate market.

UDI is a fully integrated company focused on development and construction of commercial, residential, retail and logistic projects and it has been active in the Central European market for over 25 years.

The company's teams of professionals manage the complete development process from design, preparation, project documentation, budget control to construction, authorisation and comprehensive project supervision.

By directly selling and leasing their products UDI has acquired a perfect understanding of clients and their requirements, and is thus able to adopt to the requirements and specifics of the various markets. The company provides

assistance and support to their clients during the purchase process, based on its knowledge and expertise.

UDI is dedicated to following the latest trends in construction and using sophisticated architectural and technical solutions when creating living space for families and individuals. All the projects are built in respect to the existing buildings and the surrounding environment, to provide the greatest possible comfort for living, work and leisure.

In the Czech Republic and Slovakia, UDI has over 100 developed projects and over 1,000,000 square metres of constructed commercial and residential space. During 2018, UDI expanded their presence to Serbian, Polish and Hungarian markets with several new projects currently under development. Diplomacy and Commerce magazine will have the privilege of announcing their first project in Belgrade in one of the upcoming issues.
